

STAFF COVERAGE AND SUPERVISION OF STUDENTS

Adequate staff supervision of students shall be provided at the Washington School for the Deaf to ensure student safety and an appropriate educational environment is maintained. Appropriate staff to student ratios for residential students in the cottages will be determined in consultation with the Department of Social and Health Services' Children's Administration's Division of Licensed Resources, using guidelines established for other residential programs.

The superintendent is directed to promulgate and maintain on file procedures consistent with this policy. These staff coverage and supervision procedures shall cover such issues as transitions between the day and evening programs, specified study periods, activities outside of the cottages, and visitors to the cottages.

Adoption Date: 12/09/04
